The History of Woodruff & Sons, Inc.

Roy Woodruff established the company in 1946 with his father William and his brother Louis in Michigan City, Indiana. As a "forward thinking contractor" his vision set this company apart. Throughout his career he has designed and patented numerous mechanical innovations for the construction industry. As the third generation of the Woodruff family integrated into the business, we were

able to expand to locations in Florida in 1973.

The success of our company is directly related to our years of experience, vast knowledge in the construction field and long-term, highly trained employees. With our commitment to excellence and the dedication of our qualified personnel, we have achieved an outstanding reputation for quality and service in the construction industry.

Our Motto:

*Take pride in your work,
Do it right the first time,
And respect the other person and
his property.*

Roy J. Woodruff, President
